Reuse, Reclaim & Waste Water Applications

FLANGED FULL-BORE

IMAG Series

- 2" - 12" Sizes
- Programmable Display
- 2:1 Straight Pipe
- Pulse, HART, Modbus or 4-20mA Output
- IP68 (Direct Burial & Submersion)
- NSF 61 (Potable Water)

Unobstructed flow and electrodes designed to discourage fouling allow these meters to be used in dirty and waste water applications.

BATTERY INSERTION

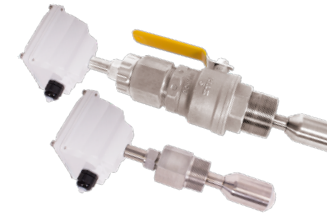

EX90

- 4"-12" Pipe Sizes
- 4 Year Battery Life
- No Moving Parts
- NSF-61 (Potable Water)
- Saddle or Weld-o-let Models

The EX90 is a battery powered, insertion mag designed for difficult applications where no power is available. With no moving parts, they are low maintenance and easy to install.

ADJUSTABLE DEPTH INSERTION

EX100/200 Series

- 3" - 48" Adjustable depth
- Stainless Steel or Brass
- Externally Powered
- Hot Tap Available
- NSF-61 (Stainless Only)

With no moving parts, these meters are low maintenance and fit a variety of pipe sizes, types and poor water conditions.

PLASTIC MAGMETER

WMP Series

- 1" - 3" Sizes
- External or Battery Powered
- 2:1 Straight Pipe
- Polypro Body
- Pulse Output (101 only)

The WMP's polypropylene flow tube offers corrosion resistance and unobstructed flow. It's light weight and easy to install or remove.

FIXED DEPTH INSERTION

EX800 Series

- 1" - 12" Fixed Depth
- Externally Powered
- Stainless Steel, PVC or Brass
- NSF-61 (Stainless Only)

A choice of materials allows the meter to adapt to a range of temperature, pressure, and corrosive environments.
