

Your security bolt kit comes with the following (shown above):

- 1) Security Bolt (Qty 2)
- 2) Steel Nut (Qty 2)
- 3) Washer (Qty 2)
- 4) Security Seal with 24" of wire

Kit Numbers:

- 103962-01 Security Bolt Kit 3" & 4" Flanged Meters
- 103962-02 Security Bolt Kit 6" & 8" Flanged Meters
- 103962-03 Security Bolt Kit 10" & 12" Flanged Meters

1. Remove two of the standard bolts. (A)
2. Install one of the security bolts for each of the two standard bolts that have been removed. The security bolts will have a cross drilled hole at the threaded end. Make sure to use the included washers. (B)
3. The bolts are usually placed in two adjoining holes but can be installed in any two holes as long as the included 24" security wire reaches.
4. Install security wire and security clip. (C)
